

**CITY OF GREENSBURG  
STORMWATER MANAGEMENT  
CHECKLIST D**

TO BE COMPLETED BY AN ENGINEER OR SURVEYOR--- ATTACH  
A COPY TO EACH OF THE PRINTS ALONG WITH OTHER  
REQUIRED DOCUMENT

Date: \_\_\_\_\_ Name of Subdivision: \_\_\_\_\_

Tax Map Number: 10 - \_\_\_\_\_

1. General description of project.
2. General description of storm water controls during and after development.
3. Project time schedule, including anticipated start and completion dates.
4. Soil erosion and sedimentation control plan approval from Westmoreland Conservation District.
5. Storm water management comments form Westmoreland Conservation District.
6. Written maintenance program indicating proposed ownership, maintenance procedures and financial responsibility of maintenance.
7. Estimated construction cost of stormwater controls.  
\$ \_\_\_\_\_.
8. Estimated cost of maintenance for 10 years.  
\$ \_\_\_\_\_.
9. Location Map.
10. All plans must be 18" X 24" or 24" X 36".
11. Twelve (12) sets of completed plans, calculations and all information.
12. Signature block and seal for the City of Greensburg Council.
13. Title of the drawing must be "Stormwater Management Plan."
14. Source of title to land marked on the plan.

15. Existing and proposed contours at 2' intervals (5' intervals may be used for slopes greater than 10%.)
16. Streams, lakes, ponds, flood zones and other bodies of water within the project area or adjacent to the site.
17. Other physical features including wetlands, drainage swales and areas of natural vegetation to be preserved.
18. Location of existing and proposed overhead and underground utilities, sewers and water lines and easements for the same.
19. Soil types and boundaries.
20. Proposed changes to land surface and vegetative cover.
21. Areas to be cut or filled.
22. Existing and proposed structures, roads, paved areas, buildings, parking areas, etc.
23. Location of where water will exit the site and the means for discharging to the nearest stream or watercourse.
24. Plans show entire drainage network of the development including location, type and size of all components.
25. Plan view, cross sections, elevations and all required details of all components.
26. Schedule for installation of the control measures and devices.
27. All calculations, assumptions and criteria used in the design are included and are in accordance with the ordinance.
28. Proof of adequate soil permeability – for ground water recharge methods only (i.e. seepage pits, tanks, beds, trenches, etc.).
29. Sufficient right-of-way around storm water management structures and from such to a public right-of-way (Subdivision Plan).
30. Storm water management structures are located on a separate dedicated lot/parcel (Subdivision Plans).
31. Controls are located on the development site (Site Plan).
32. Financial Security for construction as required by ordinance.

- 33. Controls to be dedicated to the City of Greensburg for ownership and maintenance.
- 34. Controls to be privately owned and maintained (private entity).
- 35. Executed maintenance agreement.
- 36. Developer shall notify the City of Greensburg prior to major phases of development
- 37. Following construction, developer shall submit as-built drawings.

Signature of the Preparer:
